**Home Medications:** Address meds below and enter any New meds

- Inpatient and Home Medications (4)		For Discharge				
	Inp Status	Conv	Cont	Stop	Renew	Cnc
<b>Anti-Infective Agents</b>			<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Hydroxychloroquine Sulfate 200 MG TABLET ... 200 MG PO DAILY TEST	Reported		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<b>Cardiovascular Drugs</b>						
Lopressor 50 MG TABLET 50 MG PO BID	Active	<input type="radio"/>				<input type="radio"/>
*Multiple Matches Found*						
Metoprolol Tartrate 50 MG TABLET ... 50 MG PO BID	Reported		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

The home medications displaying in **black font (also highlighted in yellow)** **MUST be addressed upon discharge**. Click **Cont** (continue), **Stop**, or **Renew** (means entering a new prescription. Use the black pencil icon).

If desired, you may **Conv** (convert) the **blue inpatient meds** (non IV) to a prescription on discharge. Click into Conv and then the blue pencil to state # of items and any refills.

**Discharge Order:** If done first, the information flows as a “recall” into the PDOC note. Provider entries *also* directly flow into the patient’s discharge paperwork.
